I, Mario N. Alioto, declare as follows:

1. I am a partner at the law firm of Trump, Alioto, Trump & Prescott LLP, Interim Lead Counsel for the Indirect Purchaser Plaintiffs ("IP Plaintiffs"). I am admitted to practice law in this District and before the courts of the State of California. I make this declaration in support

1 of Indirect Purchaser Plaintiffs' Motion For Leave To Amend The Complaint. I testify to the  
2 following facts based on my personal knowledge.

3 2. The proposed amendments to the complaint are supported by conspiratorial  
4 evidence against Thomson, Mitsubishi and Videocon which has been revealed by recent  
5 discovery. Specifically, IP Plaintiffs discovered information during the recent Rule 30(b)(6)  
6 depositions that convinced IP Plaintiffs that Thomson, Mitsubishi and Videocon should be added  
7 as Defendants.

8 3. During IP Plaintiffs' preparation for the Rule 30(b)(6) depositions, we discovered  
9 certain CRT "[production] line status reports." These reports detail CRT production, capacity,  
10 and output information for various Defendants, and Thomson, Mitsubishi and Videocon. IP  
11 Plaintiffs confirmed through deposition testimony that the Defendants met to exchange this  
12 highly sensitive information in furtherance of their conspiracy.

13 4. The CRT production line status reports demonstrate Thomson's, Mitsubishi's and  
14 Videocon's participation in an exchange of production information with other Defendants, and  
15 show that these entities accounted for a significant share of the U.S. market for CRTs during the  
16 class period.

17 5. The proposed Fourth Amended Complaint does not change the nature of the  
18 claims asserted and does not alter the factual or legal theories as alleged in the operative  
19 complaint.

20 6. Thomson was named as a defendant in several of the original complaints filed by  
21 direct and indirect purchaser plaintiffs in late 2007. Thomson was not named as a defendant in  
22 the Consolidated Amended Complaints filed in March 2009.

23 7. IP Plaintiffs entered into a tolling agreement with Thomson dated November 6,  
24 2011.

25 8. IP Plaintiffs entered into a tolling agreement with Mitsubishi dated November 7,  
26 2011.

1           9. Pursuant to Local Rule 10-1, a redline of the proposed Fourth Amended  
2 Complaint is attached hereto as Exhibit A.

3           I declare under penalty of perjury under the laws of the United States and the state of  
4 California that the foregoing is true and correct to the best of my knowledge, information and  
5 belief.

 7 a Class of all those similarly situated in the United States, bring this action for damages and  
 8 injunctive relief under state and federal antitrust, unfair competition, and consumer protection  
 9 laws against the Defendants named herein, demanding trial by jury, and complaining and  
 10 alleging as follows:

# 11 **I. INTRODUCTION**

12 1. Plaintiffs bring this antitrust class action on behalf of individuals and entities that  
 13 indirectly purchased Cathode Ray Tube Products ("CRT Products") (as further defined below),  
 14 in the United States from Defendants, their predecessors, any subsidiaries or affiliates thereof, or  
 15 any of their unnamed co-conspirators, during the period beginning at least as early as March 1,  
 16 1995 until at least November 25, 2007 (the "Class Period"). Plaintiffs allege that during the  
 17 Class Period the Defendants conspired to fix, raise, maintain and/or stabilize prices of CRT  
 18 Products sold in the United States. Because of Defendants' unlawful conduct, Plaintiffs and  
 19 other Class Members paid artificially inflated prices for CRT Products and have suffered  
 20 antitrust injury to their business or property.

21 2. As further detailed below, beginning in at least 1995, Defendants Samsung,  
 22 Philips, Daewoo, LG and Chunghwa met or talked with at least one other Defendant in order to  
 23 discuss and agree upon CRT Product prices and the amount of CRT Products each would  
 24 produce. Over time, these Defendants reached out to the other Defendant CRT Product  
 25 manufacturers, including Toshiba, Panasonic, Hitachi, BMCC, IRICO, Thomson, Mitsubishi,  
 26 Thai CRT and Samtel, who then also met or talked with their competitors for the purpose of  
 27 fixing the prices of CRT Products. By 1997, a formal system of multilateral and bilateral  
 28

1 meetings was in place, involving the highest levels of the Defendant corporations, all with the  
2 sole purpose of fixing the prices of CRT Products at supracompetitive levels.

3 3. Throughout the Class Period, Defendants' conspiracy was effective in  
4 moderating the normal downward pressure on prices for CRT Products caused by periods of  
5 oversupply and competition from new technologies, such as TFT-LCD and Plasma.  
6 Defendants' conspiracy resulted in unusually stable pricing and even rising prices in a very  
7 mature, declining market. As a result of Defendants' unlawful conduct, Plaintiffs and Class  
8 members paid higher prices for CRT Products than they would have paid in a competitive  
9 market.

10 4. This global conspiracy is being investigated by the Antitrust Division of the  
11 United States Department of Justice ("DOJ"), and by several other international competition  
12 authorities. On February 10, 2009, a federal grand jury in San Francisco issued a two-count  
13 indictment against C.Y. Lin, the former Chairman and CEO of Defendant Chunghwa Picture  
14 Tubes, Ltd., for his participation in a global conspiracy to fix the prices of CRTs used in  
15 computer monitors and televisions. This is the first indictment to be issued in the DOJ's  
16 ongoing investigation into the CRT industry.

## 17 **II. JURISDICTION AND VENUE**

18 5. This action is instituted under Section 16 of the Clayton Act, 15 U.S.C. § 26, to  
19 obtain injunctive relief for violations of Section 1 of the Sherman Act, 15 U.S.C. § 1, to recover  
20 damages under state antitrust, unfair competition, and consumer protection laws, and to recover  
21 costs of suit, including reasonable attorneys' fees, for the injuries that Plaintiffs and all others  
22 similarly situated sustained as a result of the Defendants' violations of those laws.

23 6. The Court has subject matter jurisdiction over the federal claim under 28 U.S.C.  
24 §§ 1331 and 1337. The Court has subject matter jurisdiction over the state law claims under 28  
25 U.S.C. § 1367 because those claims are so related to the federal claim that they form part of the  
26 same case or controversy.

27 7. This court also has subject matter jurisdiction over the state law claims pursuant  
28 to the Class Action Fairness Act of 2005, which amended 28 U.S.C. § 1332 to add a new

1 subsection (d) conferring federal jurisdiction over class actions where, as here, “any member of  
2 a class of Plaintiffs is a citizen of a state different from any Defendant and the aggregated  
3 amount in controversy exceeds \$5,000,000, exclusive of interest and costs.” This Court also has  
4 jurisdiction under 28 U.S.C. § 1332(d) because “one or more members of the class is a citizen of  
5 a state within the United States and one or more of the Defendants is a citizen or subject of a  
6 foreign state.”

7 8. Venue is proper in this Judicial District pursuant to Section 12 of the Clayton Act  
8 (15 U.S.C. § 22) and 28 U.S.C. § 1391 (b), (c) and (d), because during the Class Period one or  
9 more of the Defendants resided, transacted business, was found, or had agents in, this district,  
10 and because a substantial part of the events giving rise to Plaintiffs’ claims occurred in this  
11 district, and a substantial portion of the affected portion of the interstate trade and commerce  
12 described below has been carried out in this district.

13 9. Defendants conduct business throughout the United States, including this  
14 jurisdiction, and they have purposefully availed themselves of the laws of the United States,  
15 including specifically the laws of the state of California and the individual states listed herein.  
16 Defendants’ products are sold in the flow of interstate commerce, and Defendants’ activities had  
17 a direct, substantial and reasonably foreseeable effect on such commerce.

18 10. Defendants’ conspiracy to fix the prices of CRT Products substantially affected  
19 commerce throughout the United States and in each of the states identified herein, because  
20 Defendants directly or through their agents, engaged in activities affecting each such state.  
21 Defendants have purposefully availed themselves of the laws of each of the states identified  
22 herein in connection with their activities relating to the production, marketing, and sale and/or  
23 distribution of CRT Products. Defendants produced, promoted, sold, marketed, and/or  
24 distributed CRT Products, thereby purposefully profiting from access to indirect purchaser  
25 consumers in each such state. As a result of the activities described herein, Defendants:

26 a. Caused damage to the residents of the states identified herein;  
27  
28

- b. Caused damage in each of the states identified herein by acts or omissions committed outside each such state and by regularly doing or soliciting business in each such state;
- c. Engaged in a persistent course of conduct within each state and/or derived substantial revenue from the marketing and sale of CRT Products in each such state; and
- d. Committed acts or omissions that they knew or should have known would cause damage (and, in fact, did cause damage) in each such state while regularly doing or soliciting business in each such state, engaging in other persistent courses of conduct in each such state, and/or deriving substantial revenue from the marketing and sale of CRT Products in each such state.

11. The conspiracy described herein adversely affected every person nationwide, and more particularly, consumers in each of the states identified in this Complaint, who indirectly purchased Defendants' CRT Products. Defendants' conspiracy has resulted in an adverse monetary effect on indirect purchasers in each state identified herein.

12. Prices of CRT Products in each state identified in this Complaint were raised to supracompetitive levels by the Defendants and their co-conspirators. Defendants knew that commerce in CRT Products in each of the states identified herein would be adversely affecting by implementing their conspiracy.

### **III. DEFINITIONS**

13. As used herein, the term "CRT" or "CRTs" stands for "cathode ray tube(s)." A CRT is a display technology used in televisions, computer monitors and other specialized applications. The CRT is a vacuum tube that is coated on its inside face with light sensitive phosphors. An electron gun at the back of the vacuum tube emits electron beams. When the electron beams strike the phosphors, the phosphors produce either red, green, or blue light. A system of magnetic fields inside the CRT, as well as varying voltages, directs the beams to

1 produce the desired colors. This process is rapidly repeated several times per second to produce  
2 the desired images.

3 14. There are two types of CRTs: color display tubes (“CDTs”) which are used in  
4 computer monitors and other specialized applications; and color picture tubes (“CPTs”) which  
5 are used in televisions. CDTs and CPTs are collectively referred to herein as “cathode ray  
6 tubes” or “CRTs.”

7 15. As used herein “CRT Products” includes (a) CRTs; and (b) products containing  
8 CRTs, such as television sets and computer monitors.

9 16. The “Class Period” or “relevant period” means the period beginning at least  
10 March 1, 1995 through at least November 25, 2007.

11 17. “Person” means any individual, partnership, corporation, association, or other  
12 business or legal entity.

13 18. “OEM” means any Original Equipment Manufacturer of CRT Products.

Orion was involved in CRT Product sales and manufacturing joint ventures and had subsidiaries all over the world, including South Africa, France, Indonesia, Mexico, and the United States. Plaintiffs are informed and believe that Orion was wholly owned by the “Daewoo Group.” The Daewoo Group included Daewoo Electronics Company, Ltd., Daewoo Telecom Company, Daewoo Corporation, and Orion Electric Components Company. The Daewoo Group was dismantled in or around 1999. Daewoo Electronics and Orion were 50/50 joint venture partners in an entity called Daewoo-Orion Société Anonyme (“DOSA”) in France. As of approximately 1996, DOSA produced 1.2 million CRTs annually. Daewoo sold DOSA’s CRT business in or around 2004. In December 1995, Orion partnered with defendant Toshiba Corporation and two other non-defendant entities to form P.T. Tosummit Electronic Devices Indonesia (“TEDI”) in Indonesia. TEDI was projected to have an annual production capacity of 2.3 million CRTs by 1999. During the Class Period, Orion, Daewoo Electronics, TEDI and DOSA manufactured, marketed, sold and/or distributed CRT Products, either directly or indirectly through their subsidiaries or affiliates, to customers throughout the United States.

101. Daewoo Electronics, Orion, and DOSA are collectively referred to herein as “Daewoo.”

102. Defendant Thomson SA (n/k/a Technicolor SA) (“Thomson SA”) is a French corporation with its principal place of business located at 5 Rue Jeanne d’Arc 92130 Issy-les-Moulineaux, France. Thomson SA, through its wholly-owned subsidiary Thomson Consumer Electronics Corporation, was a major manufacturer of CRTs for the United States market, with plants located in the United States, Mexico, China and Europe. Thomson SA sold its CRTs internally to its television-manufacturing division, which had plants in the United States and Mexico, and to other television manufacturers in the United States and elsewhere. 1 SA's television division also purchased CRTs from other CRT manufacturers. Thomson SA's  
2 CRT televisions were sold in the United States to consumers under the RCA brand. In  
3 November 2003, Thomson SA sold its television division to a joint venture it formed with  
4 Chinese company, TCL Corporation. The joint venture was called TCL-Thomson Electronics  
5 Corporation ("TCL-Thomson"). TCL took a 67 percent stake in the joint venture, with  
6 Thomson SA holding the rest of the shares. As part of the joint venture agreement, the parties  
7 agreed that televisions made by TCL-Thomson would be marketed under the TCL brand in Asia  
8 and the Thomson and RCA brands in Europe and North America, respectively. In July 2005,  
9 Thomson SA sold its CRT business to Videocon. During the Class Period, Thomson SA  
10 manufactured, marketed, sold and/or distributed CRT Products, either directly or indirectly  
11 through its subsidiaries or affiliates, to customers throughout the United States.

12 103. Defendant Thomson Consumer Electronics, Inc. (n/k/a Technicolor USA, Inc.)  
13 ("Thomson Consumer Electronics") is a U.S. corporation with its principal place of business  
14 located at 10330 N Meridian St., Indianapolis, IN 46290-1024. Thomson Consumer Electronics  
15 is a wholly-owned subsidiary of Thomson SA. Thomson Consumer Electronics was a major  
16 manufacturer of CRTs for the United States market, with plants located in Scranton, PA,  
17 Marion, IN and Mexicali, Mexico. The United States-based plants were closed in 2004.  
18 Thomson Consumer Electronics sold its CRTs internally to its own television-manufacturing  
19 division, which had plants in the United States and Mexico, and to other television  
20 manufacturers in the United States and elsewhere. Thomson's CRT televisions were sold in the  
21 United States to United States consumers under the RCA brand. Thomson Consumer  
22 Electronic's television business was sold to TCL-Thomson in 2003, and its CRT business was  
23 sold to Videocon in 2005. During the Class Period, Thomson Consumer Electronics  
24 manufactured, marketed, sold and/or distributed CRT Products, either directly or indirectly  
25 through its subsidiaries or affiliates, to customers throughout the United States.

26 104. Thomson SA and Thomson Consumer Electronics are collectively referred to  
27 herein as "Thomson."

Videocon manufactured its CRTs for the United States market in Thomson's former CRT plants in Mexicali, Mexico and China. Videocon sold these CRTs primarily to the joint venture, TCL-Thomson, which manufactured CRT televisions for the U.S. market in Juarez, Mexico, and which it sold under the RCA brand. During the Class Period, Videocon manufactured, marketed, sold and/or distributed CRT Products, either directly or indirectly through its subsidiaries or affiliates, to customers throughout the United States.

These CRTs were sold internally to Mitsubishi's television and monitor manufacturing division and to other television and monitor manufacturers in the U.S. and elsewhere. Mitsubishi's television and monitor division also purchased CRTs from other CRT manufacturers. During the Class Period, Mitsubishi Electric Japan manufactured, marketed, sold and distributed CRT Products in the United States.

11 ~~102, 110.~~ All of the above-listed defendants are collectively referred to herein as  
 12 "Defendants."

### 13 **VI. AGENTS AND CO-CONSPIRATORS**

14 ~~103, 111.~~ Various other persons, firms and corporations, not named as Defendants  
 15 herein, and presently unknown to Plaintiffs, have participated as co-conspirators with  
 16 Defendants and have performed acts and made statements in furtherance of the conspiracy  
 17 and/or in furtherance of the anticompetitive, unfair or deceptive conduct. Plaintiffs reserve the  
 18 right to name some or all of these Persons as Defendants at a later date.

Each Defendant which is a subsidiary of a foreign parent acts as the sole United States agent for CRT Products made by its parent company.

## **VII. INTERSTATE TRADE AND COMMERCE**

~~106,114.~~ Throughout the Class Period, each Defendant, or one or more of its subsidiaries, sold CRT Products in the United States in a continuous and uninterrupted flow of interstate and international commerce, including through and into this judicial district.

~~107,115.~~ During the Class Period, Defendants collectively controlled the vast majority of the market for CRT Products, both globally and in the United States.

~~108,116.~~ Defendants' unlawful activities, as described herein, took place within the flow of interstate commerce to purchasers of CRT Products located in states other than the states in which Defendants are located, as well as throughout the world, and had a direct, substantial and reasonably foreseeable effect upon interstate and international commerce, including the United States markets for CRT Products.

## **VIII. FACTUAL ALLEGATIONS**

### **A. CRT Technology**

~~109,117.~~ CRT technology was first developed more than a century ago. The first commercially practical CRT television was made in 1931. It was not until the RCA Corporation introduced the product at the 1939 World's Fair, however, that it became widely available to consumers. Since then, CRTs have become the heart of most display products, including televisions, computer monitors, oscilloscopes, air traffic control monitors, and ATMs. Even large public displays, including many scoreboards at sports arenas, are comprised of thousands of single color CRTs.

~~110,118.~~ As noted above, the CRT is a vacuum tube that is coated on its inside face with light sensitive phosphors. An electron gun at the back of the vacuum tube emits electron beams. When the electron beams strike the phosphors, the phosphors produce either red, green, or blue light. A system of magnetic fields inside the CRT, as well as varying voltages, directs the beams to produce the desired colors. This process is rapidly repeated several times per second to produce the desired images.

~~111,119.~~ The quality of a CRT display is dictated by the quality of the CRT itself.

No external control or feature can make up for a poor quality tube. In this regard, the CRT defines the whole product such that the product is often simply referred to as “the CRT.”

~~112,120.~~ Until the last few years, CRTs were the dominant technology used in displays, including television and computer monitors. During the Class Period, this translated into the sale of millions of CRT Products, generating billions of dollars in annual profits.

**B. Structural Characteristics Of The CRT Market**

~~113,121.~~ The structural characteristics of the CRT Product market are conducive to the type of collusive activity alleged in this Complaint. These characteristics include market concentration, ease of information sharing, the consolidation of manufacturers, multiple interrelated business relationships, significant barriers to entry, maturity of the CRT Product market, and homogeneity of products.

**a. Market Concentration**

~~114,122.~~ During the Class Period, the CRT industry was dominated by relatively few companies. In 2004, defendants Samsung SDI, LG.Philips Displays (n/k/a LP Displays), MT Picture Display and Chunghwa together held a collective 78% share of the global CRT market. The high concentration of market share facilitates coordination since there are fewer cartel members among which to coordinate pricing or allocate markets, and it is easier to monitor the pricing and production of other cartel members.

**b. Information Sharing**

~~115,123.~~ Because of common membership in trade associations for the CRT Product market and related markets (for e.g., TFT-LCD), interrelated business arrangements such as joint ventures, allegiances between companies in certain countries, and relationships between the executives of certain companies, there were many opportunities for Defendants to discuss and exchange competitive information. The ease of communication was facilitated by the use of meetings, telephone calls, e-mails, and instant messages. Defendants took advantage of these opportunities to discuss and agree upon their pricing for CRT Products.

~~116,124.~~ Defendants Chunghwa, Hitachi and Samsung are all members of the Society for Information Display. Defendants Samsung and LG Electronics, Inc. are two of the co-founders of the Korea Display Industry Association. Similarly, Daewoo, LG Electronics, LP Displays, and Samsung are members of the Electronic Display Industrial Research Association. Upon information and belief, Defendants used these trade associations as vehicles for discussing and agreeing upon their pricing for CRT Products. At the meetings of these trade associations, Defendants exchanged proprietary and competitively sensitive information which they used to implement and monitor the conspiracy.

**c. Consolidation**

~~117,125.~~ The CRT Product industry also had significant consolidation during the Class Period, including but not limited to: (a) the creation of LG.Philips Displays (n/k/a LP Displays) in 2001 as a joint venture between Royal Philips and LG Electronics, Inc.; and (b) the 2002 merger of Toshiba and Matsushita/Panasonic's CRT business into MTPD.

~~118,126.~~ Defendants also consolidated their manufacturing facilities in lower cost venues such as China and reduced manufacturing capacity to prop up prices.

**d. Multiple Interrelated Business Relationships**

~~119,127.~~ The CRT Product industry has a close-knit nature whereby multiple business relationships between supposed competitors blur the lines of competition and provided ample opportunity to collude. These business relationships also created a unity of interest among competitors so that the conspiracy was easier to implement and enforce than if such interrelationships did not exist.

~~120,128.~~ Examples of the high degree of cooperation among Defendants in both the CRT Product market and other closely related markets include the following:

a. The formation of the CRT joint venture LG.Philips Displays in 2001 by Defendants LG Electronics, Inc. and Royal Philips.

b. Defendants LG Electronics, Inc. and Royal Philips also formed LG.Philips LCD Co., Ltd., n/k/a LG Display Co., Ltd. in 1999 as a joint venture for the purpose of manufacturing TFT-LCD panels.

c. The formation of the CRT joint venture MTPD in 2003 by Defendants Toshiba and Panasonic.

d. Defendants Toshiba and Panasonic also formed Toshiba-Matsushita Display Technology Co., Ltd. as a joint venture for the purpose of manufacturing TFT-LCD panels.

e. In December 1995, Defendants Daewoo and Toshiba partnered with two other non-Defendant entities to form TEDI which manufactured CRTs in Indonesia.

f. Defendants Daewoo and Toshiba also signed a cooperative agreement relating to LCDs in 1995. Pursuant to the agreement, Daewoo produced STN LCDs, and Toshiba, which had substituted its STN LCD production with TFT LCD production, marketed Daewoo's STN LCDs globally through its network.

g. Also in 1995, Defendant Chunghwa entered into a technology transfer agreement with Defendant Toshiba for large CPTs.

h. Defendant Chunghwa has a joint venture with Defendant Samsung Electronics Co., Ltd. for the production of liquid crystal display panels. Chunghwa now licenses the technology from Defendant Royal Philips, a recent development that helped resolve a patent infringement suit filed in 2002.

i. Defendants LG Electronics, Inc. and Hitachi Ltd. entered into a joint venture in 2000 for the manufacture, sale and distribution of optical storage products such as DVD drives.

j. Defendant Samtel participates in a joint venture, Samcor Glass Limited, with Defendant Samsung Electronics Co., Ltd. and non-Defendant Corning Inc., USA for the production and supply of picture tube glass.

k. Defendant Samtel claims to have supplied CRTs to Defendants LG Electronics, Inc., Samsung, Royal Philips, and Panasonic.

**e. High Costs Of Entry Into The Industry**

~~121, 129.~~ There are substantial barriers to entry in the CRT Products industry. It

would require substantial time, resources and industry knowledge to even potentially overcome

1 the barriers to entry. It is also extremely unlikely that a new producer would enter the market in  
2 light of the declining demand for CRT Products.

3 **f. The Maturity Of The CRT Product Market**

4 ~~122,130.~~ Newer industries are typically characterized by rapid growth, innovation  
5 and high profits. The CRT Product market is a mature one, and like many mature industries, is  
6 characterized by slim profit margins, creating a motivation to collude.

7 ~~123,131.~~ Demand for CRT Products was declining throughout the Class Period.  
8 Static or declining demand is another factor which makes the formation of a collusive  
9 arrangement more likely because it provides a greater incentive to firms to avoid price  
10 competition.

11 ~~124,132.~~ In addition, conventional CRT televisions and computer monitors were  
12 being rapidly replaced by TFT-LCD and Plasma displays. This was one of the factors which led  
13 Defendants to engage in this alleged price fixing scheme in order to slow down declining CRT  
14 Product prices. Between 2000 and 2006, revenues from the sale of CRT televisions in the  
15 United States declined by 50.7 percent and are predicted to decline by an additional 84.5 percent  
16 between 2006 and 2010.

17 ~~125,133.~~ Although demand was declining as a result of the popularity of flat-panel  
18 LCD/plasma televisions and LCD monitors, CRT televisions and monitors were still the  
19 dominant display technology during the Class Period, making Defendants' collusion and the  
20 international price fixing conspiracy worthwhile. Due to the high costs of LCD panels and  
21 plasma displays during the Class Period, a substantial market for CRT Products existed as a  
22 cheaper alternative to these new technologies.

23 ~~126,134.~~ In 1999, CRT monitors accounted for 94.5 percent of the retail market for  
24 computer monitors in North America. By 2002, that figure had dropped to 73 percent; still a  
25 substantial share of the market.

26 ~~127,135.~~ As for CRT televisions, they accounted for 73 percent of the North  
27 American television market in 2004, and by the end of 2006, still held a 46 percent market  
28

share. CRT televisions continue to dominate the global television market, accounting for 75 percent of worldwide TV units in 2006.

**g. Homogeneity Of CRT Products**

~~128,136.~~ CRT Products are commodity-like products which are manufactured in standardized sizes. One Defendant's CRT Products for a particular application, such as a particular size television set or computer monitor, is substitutable for another's. Defendants sell and Plaintiffs (and Class members) purchase CRT Products primarily on the basis of price.

~~129,137.~~ It is easier to form and sustain a cartel when the product in question is commodity-like because it is easier to agree on prices to charge and to monitor those prices once an agreement is formed.

**C. Pre-Conspiracy Market**

~~130,138.~~ The genesis of the CRT conspiracy was in the late 1980s as the CRT Products business became more international and the Defendants began serving customers that were also being served by other international companies. During this period, the employees of Defendants would encounter employees from their competitors when visiting their customers. A culture of cooperation developed over the years and these Defendant employees would exchange market information on production, capacity, and customers.

~~131,139.~~ In the early 1990s, representatives from Samsung, Daewoo, Chunghwa and Orion visited each other's factories in S.E. Asia. During this period, these producers began to include discussions about price in their meetings. The pricing discussions were usually limited, however, to exchanges of the range of prices that each competitor had quoted to specific customers.

**D. Defendants' And Co-Conspirators' Illegal Agreements**

~~132,140.~~ Plaintiffs are informed and believe, and thereon allege, that in order to control and maintain profitability during declining demand for CRT Products, Defendants and their co-conspirators have engaged in a contract, combination, trust or conspiracy, the effect of which has been to raise, fix, maintain and/or stabilize the prices at which they sold CRT

1 Products to artificially inflated levels from at least March 1, 1995 through at least November 25,  
2 2007.

3 ~~133-141.~~ The CRT conspiracy was effectuated through a combination of group and  
4 bilateral meetings. In the formative years of the conspiracy (1995-1996), bilateral discussions  
5 were the primary method of communication and took place on an informal, ad hoc basis.  
6 During this period, representatives from Defendants LG, Samsung and Daewoo visited the other  
7 Defendant manufacturers including Philips, Chunghwa, Thai CRT, Hitachi, Toshiba, Mitsubishi  
8 and Panasonic to discuss increasing prices for CRT Products in general and to specific  
9 customers. These meetings took place in Taiwan, South Korea, Thailand, Japan, Malaysia,  
10 Indonesia, and Singapore.

11 ~~134-142.~~ Defendants Samsung, Chunghwa, LG, Mitsubishi and Daewoo also  
12 attended several ad hoc group meetings during this period. The participants at these group  
13 meetings also discussed increasing prices for CRT Products.

14 ~~135-143.~~ As more manufacturers formally entered the conspiracy, group meetings  
15 became more prevalent. Beginning in 1997, the Defendants began to meet in a more organized,  
16 systematic fashion, and a formal system of multilateral and bilateral meetings was put in place.  
17 Defendants' representatives attended hundreds of these meetings during the Class Period.

18 ~~136-144.~~ The overall CRT conspiracy raised and stabilized worldwide prices  
19 (including United States prices) that Defendants charged for CRT Products.

20 **a. "Glass Meetings"**

21 ~~137-145.~~ The group meetings among the participants in the CRT price-fixing  
22 conspiracy were referred to by the participants as "Glass Meetings" or "GSM." Glass Meetings  
23 were attended by employees at three general levels of the Defendants' corporations.

24 ~~138-146.~~ The first level of these meetings were attended by high level company  
25 executives including CEOs, Presidents, and Vice Presidents, and were known as "Top  
26 Meetings." Top Meetings occurred less frequently, typically quarterly, and were focused on  
27 longer term agreements and forcing compliance with price fixing agreements. Because  
28 attendees at Top Meetings had authority as well as more reliable information, these meetings

1 resulted in agreements. Attendees at Top Meetings were also able to resolve disputes because  
2 they were decision makers who could make agreements.

3 ~~139,147.~~ The second level of meetings were attended by the Defendants' high level  
4 sales managers and were known as "Management Meetings." These meetings occurred more  
5 frequently, typically monthly, and handled implementation of the agreements made at Top  
6 Meetings.

7 ~~140,148.~~ Finally, the third level of meetings were known as "Working Level  
8 Meetings" and were attended by lower level sales and marketing employees. These meetings  
9 generally occurred on a weekly or monthly basis and were mostly limited to the exchange of  
10 information and discussing pricing since the lower level employees did not have the authority to  
11 enter into agreements. These lower level employees would then transmit the competitive  
12 information up the corporate reporting chain to those individuals with pricing authority. The  
13 Working Level Meetings also tended to be more regional and often took place near Defendants'  
14 factories. In other words, the Taiwanese manufacturers' employees met in Taiwan, the Korean  
15 manufacturers' employees met in Korea, the Chinese in China, and so on.

16 a. The Chinese Glass Meetings began in 1998 and generally occurred on a  
17 monthly basis following a top or management level meeting. The China meetings had the  
18 principal purpose of reporting what had been decided at the most recent Glass Meeting to the  
19 Chinese manufacturers. Participants at the Chinese meetings included the manufacturers located  
20 in China, such as IRICO and BMCC, as well as the China-based branches of the other  
21 Defendants, including but not limited to Hitachi Shenzhen, Samsung SDI Shenzhen, Samsung  
22 SDI Tianjin, and Chunghwa.

23 b. Glass Meetings also occurred occasionally in various European countries.  
24 Attendees at these meetings included those Defendants which had subsidiaries and/or  
25 manufacturing facilities located in Europe, including Philips, LG, LP Displays, Chunghwa,  
26 Samsung, Daewoo (usually DOSA attended these meetings on behalf of Daewoo), ~~and IRICO,~~  
27 Thomson and, from 2005, Videocon.

1 ~~141,149.~~ Representatives of the Defendants also attended what were known  
2 amongst members of the conspiracy as “Green Meetings.” These were meetings held on golf  
3 courses. The Green Meetings were generally attended by top and management level employees  
4 of the Defendants.

5 ~~142,150.~~ During the Class Period, Glass Meetings took place in Taiwan, South  
6 Korea, Europe, China, Singapore, Japan, Indonesia, Thailand, ~~and~~ Malaysia and the United  
7 States.

8 ~~143,151.~~ Participants would often exchange competitively sensitive information  
9 prior to a Glass Meeting. This included information on inventories, production, sales and  
10 exports. For some such meetings, where information could not be gathered in advance of the  
11 meeting, it was brought to the meeting and shared.

12 ~~144,152.~~ The Glass Meetings at all levels followed a fairly typical agenda. First,  
13 the participants exchanged competitive information such as proposed future CRT pricing, sales  
14 volume, inventory levels, production capacity, exports, customer orders, price trends, and  
15 forecasts of sales volumes for coming months. The participants also updated the information  
16 they had provided in the previous meeting. Each meeting had a rotating, designated “Chairman”  
17 who would write the information on a white board. The meeting participants then used this  
18 information to discuss and agree upon what price each would charge for CRTs to be sold in the  
19 following month or quarter. They discussed and agreed upon target prices, price increases, so-  
20 called “bottom” prices, and price ranges for CRTs. They also discussed and agreed upon prices  
21 of CRTs that were sold to specific customers, and agreed upon target prices to be used in  
22 negotiations with large customers. Having analyzed the supply and demand, the participants  
23 would also discuss and agree upon production cutbacks.

24 ~~145,153.~~ During periods of oversupply, the focus of the meeting participants turned  
25 to making controlled and coordinated price reductions. This was referred to as setting a “bottom  
26 price.”

27 ~~146,154.~~ Defendants’ conspiracy included agreements on the prices at which  
28 certain Defendants would sell CRTs to their own corporate subsidiaries and affiliates that

1 manufactured end products, such as televisions and computer monitors. Defendants realized the  
 2 importance of keeping the internal pricing to their affiliated OEMs at a high enough level to  
 3 support the CRT pricing in the market to other OEMs. In this way, Defendants ensured that all  
 4 direct purchaser OEMs paid supracompetitive prices for CRTs.

5 ~~147,155.~~ Each of the participants in these meetings knew, and in fact discussed, the  
 6 significant impact that the price of CRTs had on the cost of the finished products into which  
 7 they were placed. Like CRTs themselves, the market for CRT Products was a mature one, and  
 8 there were slim profit margins. The Defendants therefore concluded that in order to make their  
 9 CRT price increases stick, they needed to make the increase high enough that their direct  
 10 customers (CRT TV and monitor makers) would be able to justify a corresponding price  
 11 increase to their customers. In this way, Defendants ensured that price increases for CRTs were  
 12 passed on to indirect purchasers of CRT Products.

13 ~~148,156.~~ The agreements reached at the Glass Meetings included:

- 14 a. agreements on CRT Product prices, including establishing target prices,
- 15 "bottom" prices, price ranges, and price guidelines;
- 16 b. placing agreed-upon price differentials on various attributes of CRT
- 17 Products, such as quality or certain technical specifications;
- 18 c. agreements on pricing for intra-company CRT Product sales to vertically
- 19 integrated customers;
- 20 d. agreements as to what to tell customers about the reason for a price
- 21 increase;
- 22 e. agreements to coordinate with competitors that did not attend the group
- 23 meetings and agreements with them to abide by the agreed-upon pricing;
- 24 f. agreements to coordinate pricing with CRT manufacturers in other
- 25 geographic markets such as Brazil, Europe and India;
- 26 g. agreements to exchange pertinent information regarding shipments,
- 27 capacity, production, prices and customers demands;
- 28

- h. agreements to coordinate uniform public statements regarding available capacity and supply;
- i. agreements to allocate both overall market shares and share of a particular customer's purchases;
- j. agreements to allocate customers;
- k. agreements regarding capacity, including agreements to restrict output and to audit compliance with such agreements; and
- l. agreements to keep their meetings secret.

~~149,157.~~ Efforts were made to monitor each Defendant's adherence to these agreements in a number of ways, including seeking confirmation of pricing both from customers and from employees of the Defendants themselves. When cheating did occur, it was addressed in at least four ways: 1) monitoring; 2) attendees at the meetings challenging other attendees if they did not live up to an agreement; 3) threats to undermine a competitor at one of its principal customers; and 4) a recognition in a mutual interest in living up to the target price and living up to the agreements that had been made.

~~150,158.~~ As market conditions worsened in 2005-2007, and the rate of replacement of CRT Products by TFT-LCDs increased, the group Glass Meetings became less frequent and bilateral meetings again became more prevalent. In addition, in December 2006 the DOJ issued subpoenas to manufacturers of TFT-LCDs and so the CRT co-conspirators began to have concerns about antitrust issues.

**b. Bilateral Discussions**

~~151,159.~~ Throughout the Class Period, the Glass Meetings were supplemented by bilateral discussions between various Defendants. The bilateral discussions were more informal than the group meetings and occurred on a frequent, ad hoc basis, often between the group meetings. These discussions, usually between sales and marketing employees, took the form of in-person meetings, telephone contacts and emails.

1 ~~152~~,160. During the Class Period, in-person bilateral meetings took place in  
 2 Malaysia, Indonesia, Taiwan, China, United Kingdom, Singapore, South Korea, Japan,  
 3 Thailand, Brazil, ~~and~~ Mexico and the United States.

4 ~~153~~,161. The purpose of the bilateral discussions was to exchange information  
 5 about past and future pricing, confirm production levels, share sales order information, confirm  
 6 pricing rumors, and coordinate pricing with manufacturers in other geographic locations,  
 7 including Brazil, Mexico, ~~and~~ Europe and the United States.

8 ~~154~~,162. In order to ensure the efficacy of their global conspiracy, the Defendants  
 9 also used bilateral meetings to coordinate pricing with CRT Product manufacturers in Brazil,  
 10 ~~and~~ Mexico and the United States, such as Philips ~~Brazil~~, Samsung SDI ~~Brazil~~, Thomson,  
 11 Mitsubishi and later, LPD (from 2001) and Videocon (from 2005), ~~and Samsung SDI Mexico~~.  
 12 These ~~Brazilian and Mexican CRT~~ manufacturers were particularly important because they  
 13 served the North American market for CRT Products. As further alleged herein, North America  
 14 was the largest market for CRT televisions and computer monitors during the Class Period.  
 15 Because these ~~Brazilian and Mexican~~ manufacturers ~~were~~ are all wholly-owned and controlled  
 16 subsidiaries of Defendants Philips, ~~and~~ Samsung SDI, ~~Thomson, Mitsubishi and LPD~~, they  
 17 adhered to the unlawful price-fixing agreements. In this way, the Defendants ensured that prices  
 18 of all CRT Products ~~imported into~~ sold in the United States were fixed, raised, maintained and/or  
 19 stabilized at supracompetitive levels.

20 ~~155~~,163. Defendants also used bilateral discussions with each other during price  
 21 negotiations with customers to avoid being persuaded by customers to cut prices. The  
 22 information gained in these communications was then shared with supervisors and taken into  
 23 account in determining the price to be offered.

24 ~~156~~,164. Bilateral discussions were also used to coordinate prices with CRT  
 25 Product manufacturers that did not ordinarily attend the group meetings, such as Defendants  
 26 Hitachi, Toshiba, Panasonic, Thai CRT, ~~and~~ Samtel, Thomson, Mitsubishi and later Videocon.  
 27 It was often the case that in the few days following a Top or Management Meeting, the  
 28 attendees at these group meetings would meet bilaterally with the other Defendant

1 manufacturers for the purpose of communicating whatever CRT Product pricing and/or output  
 2 agreements had been reached during the meeting. For example, Samsung had a relationship  
 3 with Hitachi and was responsible for communicating CRT Product pricing agreements to  
 4 Hitachi. LG had a relationship with Toshiba and was responsible for communicating CRT  
 5 Product pricing agreements to Toshiba. And Thai CRT had a relationship with Samtel and was  
 6 responsible for communicating CRT Product pricing agreements to Samtel. Hitachi, Toshiba  
 7 and Samtel implemented the agreed-upon pricing as conveyed by Samsung, LG, and Thai CRT.  
 8 Sometimes Hitachi and Toshiba also attended the Glass Meetings. Similarly, Philips had regular  
 9 bilateral communications with Thomson in Europe and the United States, and Samsung SDI had  
 10 regular communications with Mitsubishi. In this way, Hitachi, Toshiba, ~~and~~ Samtel, Thomson  
 11 and Mitsubishi participated in the conspiracy to fix prices of CRT Products.

12 **c. Defendants' And Co-Conspirators' Participation In Group And Bilateral**  
 13 **Discussions**

14 ~~157,165.~~ Between at least 1995 and 2007, Defendant Samsung, through SEC,  
 15 Samsung SDI, Samsung SDI Malaysia, Samsung SDI Shenzhen, and Samsung SDI Tianjin,  
 16 participated in at least 200 Glass Meetings at all levels. A substantial number of these meetings  
 17 were attended by the highest ranking executives from Samsung. Samsung also engaged in  
 18 bilateral discussions with each of the other Defendants on a regular basis. Through these  
 19 discussions, Samsung agreed on prices and supply levels for CRT Products.

20 ~~158,166.~~ Defendants SEAI, Samsung SDI America, Samsung SDI Brazil, and  
 21 Samsung SDI Mexico were represented at those meetings and were a party to the agreements  
 22 entered at them. To the extent SEC and SEAI sold and/or distributed CRT Products, they  
 23 played a significant role in the conspiracy because Defendants wished to ensure that the prices  
 24 for CRT Products paid by direct purchasers would not undercut the CRT pricing agreements  
 25 reached at the Glass Meetings. Thus, SEAI, Samsung SDI America, Samsung SDI Brazil, and  
 26 Samsung SDI Mexico were active, knowing participants in the alleged conspiracy.

27 ~~159,167.~~ Between at least 1995 and 2001, Defendant LG, through LG Electronics,  
 28 Inc. and LGETT, participated at least 100 Glass Meetings at all levels. After 2001, LG

1 participated in the CRT Product conspiracy through its joint venture with Philips, LG.Philips  
 2 Displays (n/k/a LP Displays). A substantial number of these meetings were attended by the  
 3 highest ranking executives from LG. LG also engaged in bilateral discussions with each of the  
 4 other Defendants on a regular basis. Through these discussions, LG agreed on prices and supply  
 5 levels for CRT Products. LG never effectively withdrew from this conspiracy.

6 ~~160,168.~~ Defendant LGEUSA was represented at those meetings and was a party to  
 7 the agreements entered at them. To the extent LGEUSA sold and/or distributed CRT Products,  
 8 they played a significant role in the conspiracy because Defendants wished to ensure that the  
 9 prices for CRT Products paid by direct purchasers would not undercut the pricing agreements  
 10 reached at the Glass Meetings. Thus, LGEUSA was an active, knowing participant in the  
 11 alleged conspiracy.

12 ~~161,169.~~ Between at least 1996 and 2001, Defendant Philips, through Royal Philips  
 13 and Philips Taiwan, participated at least 100 Glass Meetings at all levels. After 2001, Philips  
 14 participated in the CRT Product conspiracy through its joint venture with LG, LG.Philips  
 15 Displays (n/k/a LP Displays). A substantial number of these meetings were attended by high  
 16 level executives from Philips. Philips also engaged in numerous bilateral discussions with other  
 17 Defendants. Through these discussions, Philips agreed on prices and supply levels for CRT  
 18 Products. Philips never effectively withdrew from this conspiracy.

19 ~~162,170.~~ Defendants PENAC and Philips Brazil were represented at those  
 20 meetings and were a party to the agreements entered at them. To the extent PENAC and Philips  
 21 Brazil sold and/or distributed CRT Products to direct purchasers, they played a significant role  
 22 in the conspiracy because Defendants wished to ensure that the prices for CRT Products paid by  
 23 direct purchasers would not undercut the pricing agreements reached at the Glass Meetings.  
 24 Thus, PENAC and Philips Brazil were active, knowing participants in the alleged conspiracy.

25 ~~163,171.~~ Between at least 2001 and 2006, Defendant LP Displays (f/k/a LG.Philips  
 26 Displays) participated at least 100 Glass Meetings at all levels. A substantial number of these  
 27 meetings were attended by the highest ranking executives from LP Displays. Certain of these  
 28 high level executives from LP Displays had previously attended meetings on behalf of

1 defendants LG and Philips. LP Displays also engaged in bilateral discussions with other  
2 Defendants. Through these discussions, LP Displays agreed on prices and supply levels for  
3 CRT Products.

4 ~~164~~,172. Between at least 1995 and 2006, Defendant Chunghwa, through CPT,  
5 Chunghwa Malaysia, and representatives from their factories in Fuzhuo (China) and Scotland,  
6 participated in at least 100 Glass Meetings at all levels. A substantial number of these meetings  
7 were attended by the highest ranking executives from Chunghwa, including the former  
8 Chairman and CEO of CPT, C.Y. Lin. Chunghwa also engaged in bilateral discussions with  
9 each of the other Defendants on a regular basis. Through these discussions, Chunghwa agreed  
10 on prices and supply levels for CRT Products.

11 ~~165~~,173. Defendant Tatung America was represented at those meetings and was a  
12 party to the agreements entered at them. To the extent Tatung America sold and/or distributed  
13 CRT Products to direct purchasers, it played a significant role in the conspiracy because  
14 Defendants wished to ensure that the prices for CRT Products paid by direct purchasers would  
15 not undercut the pricing agreements reached at the Glass Meetings. Thus, Tatung America was  
16 an active, knowing participant in the alleged conspiracy.

17 ~~166~~,174. Between at least 1995 and 2004, Daewoo, through Daewoo Electronics,  
18 Orion and DOSA, participated in at least 100 Glass Meetings at all levels. A substantial number  
19 of these meetings were attended by the highest ranking executives from Daewoo. Daewoo also  
20 engaged in bilateral discussions with other Defendants on a regular basis. Through these  
21 discussions, Daewoo agreed on prices and supply levels for CRT Products. Bilateral  
22 discussions with Daewoo continued until Orion, its wholly-owned CRT subsidiary, filed for  
23 bankruptcy in 2004. Daewoo never effectively withdrew from this conspiracy.

24 ~~167~~,175. Between at least 1995 and 2003, Defendant Toshiba, through Toshiba  
25 Corporation, TDDT and TEDI, participated in several Glass Meetings. After 2003, Toshiba  
26 participated in the CRT conspiracy through its joint venture with Panasonic, MTPD. These  
27 meetings were attended by high level sales managers from Toshiba and MTPD. Toshiba also  
28 engaged in multiple bilateral discussions with other Defendants, particularly with LG. Through

1 these discussions, Toshiba agreed on prices and supply levels for CRT Products. Toshiba never  
2 effectively withdrew from this conspiracy.

3 ~~168~~,176. Defendants Toshiba America, Inc., TACP, TAIP and TAEC were  
4 represented at those meetings and were a party to the agreements entered at them. To the extent  
5 Toshiba America, Inc., TACP, TAIP and TAEC sold and/or distributed CRT Products to direct  
6 purchasers, they played a significant role in the conspiracy because Defendants wished to ensure  
7 that the prices for CRT Products paid by direct purchasers would not undercut the pricing  
8 agreements reached at the Glass Meetings. Thus, Toshiba America, TACP, TAIP, and TAEC  
9 were active, knowing participants in the alleged conspiracy.

10 ~~169~~,177. Between at least 1996 and 2001, Defendant Hitachi, through Hitachi,  
11 Ltd., Hitachi Displays, Hitachi Shenzhen, and Hitachi Asia, participated in several Glass  
12 Meetings. These meetings were attended by high level sales managers from Hitachi. Hitachi  
13 also engaged in multiple bilateral discussions with other Defendants, particularly with Samsung.  
14 Through these discussions, Hitachi agreed on prices and supply levels for CRT Products.  
15 Hitachi never effectively withdrew from this conspiracy.

16 ~~170~~,178. Defendants Hitachi America and HEDUS were represented at those  
17 meetings and were a party to the agreements entered at them. To the extent Hitachi America  
18 and HEDUS sold and/or distributed CRT Products to direct purchasers, they played a significant  
19 role in the conspiracy because Defendants wished to ensure that the prices for CRT Products  
20 paid by direct purchasers would not undercut the pricing agreements reached at the Glass  
21 Meetings. Thus, Hitachi America and HEDUS were active, knowing participants in the alleged  
22 conspiracy.

23 ~~171~~,179. Between at least 1996 and 2003, Defendant Panasonic (known throughout  
24 the class period as Matsushita Electric Industrial Co., Ltd.), through Panasonic Corporation and  
25 Matsushita Malaysia, participated in several Glass Meetings. After 2003, Panasonic participated  
26 in the CRT conspiracy through its joint venture with Toshiba, MTPD. These meetings were  
27 attended by high level sales managers from Panasonic and MTPD. Panasonic also engaged in  
28 multiple bilateral discussions with other Defendants. Through these discussions, Panasonic

1 agreed on prices and supply levels for CRT Products. Panasonic never effectively withdrew  
2 from this conspiracy.

3 ~~172~~180. Panasonic NA was represented at those meetings and was a party to the  
4 agreements entered at them. To the extent Panasonic NA sold and/or distributed CRT Products  
5 to direct purchasers, it played a significant role in the conspiracy because Defendants wished to  
6 ensure that the prices for CRT Products paid by direct purchasers would not undercut the pricing  
7 agreements reached at the Glass Meetings. Thus, Panasonic NA was an active, knowing  
8 participant in the alleged conspiracy.

9 ~~173~~181. Between at least 2003 and 2006, Defendant MTPD participated in  
10 multiple Glass Meetings and in fact led many of these meetings during the latter years of the  
11 conspiracy. These meetings were attended by high level sales managers from MTPD. MTPD  
12 also engaged in bilateral discussions with other Defendants. Through these discussions, MTPD  
13 agreed on prices and supply levels for CRT Products.

14 ~~174~~182. Between at least 1998 and 2007, Defendant BMCC participated in  
15 multiple Glass Meetings. These meetings were attended by high level sales managers from  
16 BMCC. BMCC also engaged in multiple bilateral discussions with other Defendants,  
17 particularly the other Chinese CRT manufacturers. Through these discussions, BMCC agreed  
18 on prices and supply levels for CRT Products. None of BMCC's conspiratorial conduct in  
19 connection with CRT Products was mandated by the Chinese government. BMCC was acting to  
20 further its own independent private interests in participating in the alleged conspiracy.

21 ~~175~~183. Between at least 1998 and 2007, Defendant IRICO, through IGC, IGE,  
22 and IDDC, participated in multiple Glass Meetings. These meetings were attended by the  
23 highest ranking executives from IRICO. IRICO also engaged in multiple bilateral discussions  
24 with other Defendants, particularly with other Chinese manufacturers. Through these  
25 discussions, IRICO agreed on prices and supply levels for CRT Products. None of IRICO's  
26 conspiratorial conduct in connection with CRT Products was mandated by the Chinese  
27 government. IRICO was acting to further its own independent private interests in participating  
28 in the alleged conspiracy.

1 ~~176,184.~~ Between at least 1997 and 2006, Defendant Thai CRT participated in  
2 multiple Glass Meetings. These meetings were attended by the highest ranking executives from  
3 Thai CRT. Thai CRT also engaged in multiple bilateral discussions with other Defendants,  
4 particularly with Samtel. Through these discussions, Thai CRT agreed on prices and supply  
5 levels for CRT Products. Thai CRT never effectively withdrew from this conspiracy.

6 185. Between at least 1998 and 2006, Defendant Samtel participated in multiple  
7 bilateral discussions with other Defendants, particularly with Thai CRT. These meetings were  
8 attended by high level executives from Samtel. Through these discussions, Samtel agreed on  
9 prices and supply levels for CRT Products. Samtel never effectively withdrew from this  
10 conspiracy.

11 186. Between at least 1996 and 2005, Defendant Thomson participated in at least 61  
12 meetings with its competitors, including several Glass Meetings and multiple bilateral meetings.  
13 These meetings were attended by high level sales managers from Thomson. At these meetings,  
14 Thomson discussed such things as CRT prices, production, revenues, volumes, demand,  
15 inventories, estimated sales, plant shutdowns, customer allocation, and new product  
16 development and agreed on prices and supply levels for CRT Products. Thomson never  
17 effectively withdrew from this conspiracy.

18 187. Between 2005 and 2007, Videocon participated in several Glass Meetings and  
19 multiple bilateral meetings with its competitors. These meetings were attended by high level  
20 sales managers from Videocon. At these meetings, Videocon discussed such things as CRT  
21 prices, production, revenues, volumes, demand, inventories, estimated sales, plant shutdowns,  
22 customer allocation, and new product development, and agreed on prices and supply levels for  
23 CRT Products. Videocon never effectively withdrew from this conspiracy.

24 ~~177,188.~~ Between at least 1995 and 2005, Defendant Mitsubishi participated in  
25 multiple bilateral and some multilateral meetings with its competitors. These meetings were  
26 attended by high level sales managers from Mitsubishi. At these meetings, Mitsubishi discussed  
27 such things as CRT prices, production, revenues, volumes, demand, inventories, estimated sales,  
28

plant shutdowns, customer allocation, and new product development, and agreed on prices and supply levels for CRT Products. Mitsubishi never effectively withdrew from this conspiracy.

~~178,189.~~ When Plaintiffs refer to a corporate family or companies by a single name in their allegations of participation in the conspiracy, Plaintiffs are alleging that one or more employees or agents of entities within the corporate family engaged in conspiratorial meetings on behalf of every company in that family. In fact, the individual participants in the conspiratorial meetings and discussions did not always know the corporate affiliation of their counterparts, nor did they distinguish between the entities within a corporate family. The individual participants entered into agreements on behalf of, and reported these meetings and discussions to, their respective corporate families. As a result, the entire corporate family was represented in meetings and discussions by their agents and were parties to the agreements reached in them.

#### **E. The CRT Market During The Conspiracy**

~~179,190.~~ Until the last few years, CRTs were the dominant technology used in displays, including television and computer monitors. During the Class Period, this translated into the sale of millions of CRT Products, generating billions of dollars in annual profits.

~~180,191.~~ The following data was reported by Stanford Resources, Inc., a market research firm focused on the global electronic display industry:

Year	Units Sold (millions)	Revenue (billion US dollars)	Average Selling Price Per Unit
1998	90.5	\$18.9	\$208
1999	106.3	\$19.2	\$181
2000	119.0	\$28.0	\$235

~~181,192.~~ During the Class Period, North America was the largest market for CRT TVs and computer monitors. According to a report published by Fuji Chimera Research, the 1995 worldwide market for CRT monitors was 57.8 million units, 28 million of which (48.5 percent) were consumed in North America. By 2002, North America still consumed around 35 percent of the world's CRT monitor supply. *See, The Future of Liquid Crystal and Related Display Materials*, Fuji Chimera Research, 1997, p.12.

1 ~~182,193.~~ Defendants' collusion is evidenced by unusual price movements in the  
 2 CRT Product market during the Class Period. In the 1990s, industry analysts repeatedly  
 3 predicted declines in consumer prices for CRT Products that did not fully materialize. For  
 4 example, in 1992, an analyst for Market Intelligent Research Corporation predicted that  
 5 "[e]conomies of scale, in conjunction with technological improvements and advances in  
 6 manufacturing techniques, will produce a drop in the price of the average electronic display to  
 7 about \$50 in 1997." Information Display 9/92 p.19. Despite such predictions, and the existence  
 8 of economic conditions warranting a drop in prices, CRT Product prices nonetheless remained  
 9 stable.

10 ~~183,194.~~ In 1996, another industry source noted that "the price of the 14" tube is at  
 11 a sustainable USD50 and has been for some years...."

12 ~~184,195.~~ In early 1999, despite declining production costs and the rapid entry of  
 13 flat panel display products, the price of large sized color CRTs actually rose. The price increase  
 14 was allegedly based on increasing global demand. In fact, this price increase was a result of the  
 15 collusive conduct as herein alleged.

16 ~~185,196.~~ After experiencing oversupply of 17" CRTs in the second half of 1999,  
 17 the average selling price of CRTs rose again in early 2000. A March 13, 2000 article in *Infotech*  
 18 *Weekly* quoted an industry analyst as saying that this price increase was "unlike most other PC-  
 19 related products."

20 ~~186,197.~~ A BNET Business Network news article from August 1998 reported that  
 21 "key components (cathode ray tubes) in computer monitors have risen in price. 'Although  
 22 several manufacturers raised their CRT prices in the beginning of August, additional CRT price  
 23 increases are expected for the beginning of October....While computer monitor price increases  
 24 may be a necessary course of action, we [CyberVision, a computer monitor manufacturer] do  
 25 not foresee a drop in demand if we have to raise our prices relative to CRT price increases.'"

26 ~~187,198.~~ A 2004 article from Techtree.com reports that various computer monitor  
 27 manufacturers, including LG Electronics, Philips, and Samsung, were raising the price of their  
 28 monitors in response to increases in CRT prices caused by an alleged shortage of glass shells

1 used to manufacture the tubes. Philips is quoted as saying that, "It is expected that by the end of  
2 September this year [2004] there will be 20% hike in the price of our CRT monitors."

3 ~~188,199.~~ Defendants also conspired to limit production of CRTs by shutting down  
4 production lines for days at a time, and closing or consolidating their manufacturing facilities.

5 ~~189,200.~~ For example, the Defendants' CRT factory utilization percentage fell  
6 from 90 percent in the third quarter of 2000 to 62 percent in the first quarter of 2001. This is the  
7 most dramatic example of a drop in factory utilization. There were sudden drops throughout the  
8 Class Period but to a lesser degree. Plaintiffs are informed and believe that these sudden,  
9 coordinated drops in factory utilization by the Defendants were the result of Defendants'  
10 agreements to decrease output in order to stabilize the prices of CRT Products.

11 ~~190,201.~~ During the Class Period, while demand in the United States for CRT  
12 Products continued to decline, Defendants' conspiracy was effective in moderating the normal  
13 downward pressures on prices for CRT Products caused by the entry and popularity of the new  
14 generation LCD panels and plasma display products. As Finsen Yu, President of Skyworth  
15 Macao Commerical Offshore Co., Ltd., a television maker, was quoted in January of 2007:  
16 "[t]he CRT technology is very mature; prices and technology have become stable."

17 ~~191,202.~~ During the Class Period, there were not only periods of unnatural and  
18 sustained price stability, but there were also increases in prices of CRT Products. These price  
19 increases were despite the declining demand due to the approaching obsolescence of CRT  
20 Products caused by the emergence of a new, potentially superior and clearly more popular,  
21 substitutable technology.

22 ~~192,203.~~ These price increases and price stability in the market for CRT Products  
23 during the Class Period are inconsistent with a competitive market for a product facing rapidly  
24 decreasing demand caused by a new, substitutable technology.

#### 25 **F. International Government Antitrust Investigations**

26 ~~193,204.~~ Defendants' conspiracy to fix, raise, maintain and stabilize the prices of,  
27 and restrict output for, CRT Products sold in the United States during the Class Period, is  
28

demonstrated by a multinational investigation commenced by the Antitrust Division of the United States Department of Justice (“DOJ”) and others in November 2007.

~~194,205.~~ On November 8, 2007, antitrust authorities in Europe, Japan and South Korea raided the offices of manufacturers of CRTs as part of an international investigation of alleged price fixing.

~~195,206.~~ On February 10, 2009, the DOJ issued a press release announcing that a federal grand jury in San Francisco had that same day returned a two-count indictment against the former Chairman and Chief Executive Officer of Defendant Chunghwa Picture Tubes, Ltd., Cheng Yuan Lin, aka C.Y. Lin, for his participation in global conspiracies to fix the prices of two types of CRTs used in computer monitors and televisions. The press release notes that “[t]his is the first charge as a result of the Antitrust Division’s ongoing investigation into the cathode ray tubes industry.” The press release further notes that Lin had previously been indicted for his participation in a conspiracy to fix the prices of TFT-LCDs. Mr. Lin’s indictment states that the combination and conspiracy to fix the prices of CRTs was carried out, in part, in the Northern District of California.

~~196,207.~~ Defendant MT Picture Display Co., Ltd., the CRT unit of Defendant Panasonic, has confirmed that it was raided by Japan’s Fair Trade Commission.

~~197,208.~~ *Kyodo News* reported on November 8, 2007, upon information and belief, that MT Picture Display fixed prices for CRTs with manufacturers in three Asian countries, including South Korea’s Samsung SDI Co.

~~198,209.~~ *Kyodo News* further reported that:

Officials of these three companies are believed to have had at least 10 meetings since 2005 in major Asian cities to coordinate target prices when delivering their products to TV manufacturers in Japan and South Korea, the sources said.

~~199,210.~~ Defendant Samsung SDI Co., Ltd. was raided by South Korea’s Fair Trade Commission, which has started an investigation into Samsung’s CRT business.

~~200,211.~~ The *Asian Shimbun* further reported on November 10, 2007 that “[t]he representatives held meetings in Southeast Asia where the companies operate CRT factories, the

sources said. The European Commission, the European Union's executive branch, and the U.S. Justice Department have been investigating four companies' [referring to the four Asian-based manufacturers—MT Picture Display, Samsung SDI Co., Chunghwa Picture Tubes, LP Displays] overseas units and are closely consulting with the Fair Trade Commission by sharing information."

~~201-212.~~ On November 21, 2007, Defendant Royal Philips publicly disclosed that it too is subject to one or more investigations into anticompetitive conduct in the CRT industry. Royal Philips spokesman Joon Knapen declined to comment on which jurisdictions have started investigations. Royal Philips stated that it intended to assist the regulators.

~~202-213.~~ In its 2008 Annual Report, Defendant Toshiba reports that "[t]he Group is also being investigated by the [European] Commission and/or the U.S. Department of Justice for potential violations of competition laws with respect to semiconductors, LCD products, cathode ray tubes (CRT) and heavy electrical equipment."

~~203-214.~~ On May 6, 2008, the Hungarian Competition Authority ("HCA") announced its own investigation into the CRT cartel. The HCA described the cartel as follows:

The Hungarian Competition Authority (Gazdasági Versenyhivatal – GVH) initiated a competition supervision proceeding against the following undertakings: Samsung SDI Co., Ltd., Samsung SDI Germany GmbH, Samsung SDI Magyarország Zrt., Thomson TDP sp. Z.o.o., LG Philips Displays Czech Republic s.r.o., LP Displays, Chunghwa Picture Tubes (UK), Ltd., Chunghwa Picture Tubes, Ltd., Daewoo Orion S.A., Daewoo Electronics Global HQ, Daewoo Electronics European HQ, MT Picture Display Germany GmbH, Matsushita Global HQ, Matsushita European HQ.

Based on the data available, the undertakings mentioned above concerted their practice regarding the manufacturing and distribution of cathode-ray tubes (including coloured picture tubes and coloured screen tubes) on the European market between 1995 and 2007. The anti-competitive behaviour may have concerned the exchange of sensitive market information (about prices, volumes sold, demand and the extent to which capacities were exploited), price-fixing, the allocation of market shares, consumers and volumes to be sold, the limitation of output and coordination concerning the production. The undertakings evolved a structural system and functional mechanism of cooperation.

1 According to the available evidences it is presumable that the coordination  
2 of European and Asian undertakings regarding to the European market also  
3 included Hungary from 1995 to 2007. The coordination concerning the  
4 Hungarian market allegedly formed part of the European coordination.  
5 Samsung SDI Magyarország was called into the proceeding since it  
6 manufactured and sold cathode-ray tubes in Hungary in the examined  
7 period, and it allegedly participated in the coordination between its parent  
8 companies.

9 ~~204,215.~~ As outlined above, Defendants have a history of competitor contacts  
10 resulting from joint ventures, numerous cross-licensing agreements, and other alliances in  
11 related businesses in the electronics industry.

12 ~~205,216.~~ Several Defendants also have a history of “cooperation” and  
13 anticompetitive conduct. For example, Defendant Samsung was fined \$300 million by the U.S.  
14 Department of Justice in October 2005 for participating in a conspiracy to fix the prices of  
15 Dynamic Random Access Memory (DRAM).

16 ~~206,217.~~ Defendants Samsung and Toshiba have acknowledged being contacted by  
17 the U.S. Department of Justice as part of an ongoing investigation for fixing prices of Static  
18 Random Access Memory and NAND Flash Memory.

19 ~~207,218.~~ In December 2006, government authorities in Japan, Korea, the European  
20 Union and the United States revealed a comprehensive investigation into anticompetitive  
21 conduct in the closely-related TFT-LCD market.

22 ~~208,219.~~ On December 12, 2006, news reports indicated that Defendants Samsung  
23 and Chunghwa, as well as an LCD joint venture between Defendants Philips and LG  
24 Electronics, Inc, LG Display Co., Ltd., were all under investigation for price fixing of TFT-  
25 LCDs.

26 ~~209,220.~~ On November 12, 2008, the DOJ announced that it had reached  
27 agreements with three TFT-LCD manufacturers—LG Display Co., Ltd. (and its U.S. subsidiary,  
28 LG Display America, Inc.), Sharp Corporation, and Defendant Chunghwa Picture Tubes, Ltd.—  
to plead guilty to violations of Section 1 of the Sherman Act, 15 U.S.C. § 1, and pay a total of  
\$585 million in criminal fines for their roles in a conspiracy to fix prices of TFT-LCD panels.

1 ~~210,221.~~ On March 10, 2009, the DOJ announced that it had reached an agreement  
 2 with Defendant Hitachi Displays, Ltd., a subsidiary of Defendant Hitachi, Ltd., to plead guilty to  
 3 violations of Section 1 of the Sherman Act, 15 U.S.C. § 1, and pay a \$31 million fine for its role  
 4 in a conspiracy to fix the prices of TFT-LCD panels.

5 ~~211,222.~~ The indictments of LG Display Co., Ltd., Sharp Corporation, Chunghwa  
 6 Picture Tubes, Ltd. and Hitachi Displays, Ltd., all state that the combination and conspiracy to  
 7 fix the prices of TFT-LCDs was carried out, in part, in the Northern District of California.

8 **IX. THE PASS-THROUGH OF OVERCHARGES TO CONSUMERS**

9 ~~212,223.~~ Defendants' conspiracy to fix, raise, maintain and stabilize the price of  
 10 CRT Products at artificial levels resulted in harm to Plaintiffs and the indirect purchaser  
 11 consumer classes alleged herein because it resulted in their paying higher prices for CRT  
 12 Products than they would have paid in the absence of Defendants' conspiracy. The entire  
 13 overcharge at issue was passed on to Plaintiffs and members of the indirect purchaser classes.  
 14 As the DOJ acknowledged in announcing the indictment of defendant Chunghwa's former  
 15 Chairman and CEO, "This conspiracy harmed countless Americans who purchased computers  
 16 and televisions using cathode ray tubes sold at fixed prices."

17 ~~213,224.~~ The Defendants identified above that attended the Glass Meetings,  
 18 monitored the prices of televisions and computer monitors sold in the U.S. and elsewhere on a  
 19 regular basis. The purpose and effect of investigating such retail market data was at least three  
 20 fold. First, it permitted Defendants, such as Chunghwa, which did not manufacture CRT  
 21 televisions or computer monitors the way that Samsung, LG, Daewoo, Panasonic, Toshiba,  
 22 Philips, ~~and~~ Hitachi, Thomson and Mitsubishi did, to police the price fixing agreement to make  
 23 sure that intra-defendant CRT sales were kept at supra-competitive levels. Secondly, it  
 24 permitted all Defendants to police their price fixing agreement to independent OEMs who would  
 25 reduce prices for finished goods if there was a corresponding reduction in CRT prices from a  
 26 Defendant. Finally, as discussed above, Defendants used the prices of finished products to  
 27 analyze whether they could increase prices or should agree to a "bottom" price instead. The  
 28 Defendants concluded that in order to make their CRT price increases stick, they needed to

1 make the increase high enough that their direct customers (CRT TV and monitor makers) would  
2 be able to justify a corresponding price increase to their customers (for e.g., retailers and  
3 computer OEMs). In this way, Defendants assured that 100% of the supracompetitive  
4 overcharges for CRT Products were passed on to indirect purchaser consumers.

5 ~~214,225.~~ The indirect purchaser consumer buys CRT Products from either a  
6 computer or TV OEM such as Dell or Sharp, or a reseller such as Best Buy.

7 ~~215,226.~~ Because of the breadth of the price-fixing conspiracy here, the direct  
8 purchaser CRT TV and monitor manufacturers were not constrained by their competitors from  
9 passing on the overcharge. Because each of the direct purchaser's competitors were also buying  
10 CRTs at supracompetitive prices from conspiracy members, no direct purchaser faced end-  
11 product price competition from a competitor that was not paying supracompetitive prices for  
12 CRTs.

13 ~~216,227.~~ The price of CRT Products is directly correlated to the price of CRTs.  
14 The margins for CRT TV and monitor makers are sufficiently thin that price increases of CRTs  
15 force them to increase the prices of their CRT Products. This means that increases in the price  
16 of CRTs lead to quick corresponding price increases at the OEM level for CRT Products.

17 ~~217,228.~~ Computer and TV OEMs and retailers of CRT Products are all subject to  
18 vigorous price competition, whether selling CRT TVs or computer monitors. The demand for  
19 CRTs is ultimately determined by purchasers of products containing such products. The market  
20 for CRTs and the market for CRT Products are therefore inextricably linked and cannot be  
21 considered separately. Defendants are well aware of this intimate relationship, and use forecasts  
22 of CRT TVs and computer monitors to predict sales of and determine production levels and  
23 pricing for CRTs.

24 ~~218,229.~~ Computers and televisions are commodities with little or no brand loyalty  
25 such that aggressive pricing causes consumers to switch preferences to different brands. Prices  
26 are closely based on production costs, which are in turn directly determined by component costs,  
27 as assembly costs are minimal. OEMs accordingly use component costs, like the cost of CRTs,  
28 as the starting point for all price calculations. On information and belief, computer and TV

1 OEMs price their end-products on a “cost-plus” basis. Thus, computer and television prices  
2 closely track increases and decreases in component costs.

3 ~~219,230.~~ The CRT is the most expensive component in the products into which  
4 they are incorporated. On information and belief, the cost of the CRT in a computer monitor is  
5 approximately 60% of the total cost to manufacture the computer monitor. On information and  
6 belief, the cost of the CRT in a television is a slightly smaller percentage of the total  
7 manufacturing cost because a television has more components than a computer monitor, such as  
8 the tuner and speakers.

9 ~~220,231.~~ Economic and legal literature recognizes that the more pricing decisions  
10 are based on cost, the easier it is to determine the pass-through rate. The directness of affected  
11 costs refers to whether an overcharge affects a direct (*i.e.*, variable) cost or an indirect (*i.e.*,  
12 overhead) cost. Overcharges will be passed through sooner and at a higher rate if the  
13 overcharges affect direct costs. Here, CRTs are a direct and substantial cost of CRT Products.  
14 Therefore, Plaintiffs will be able to show that the overcharge on the CRTs was passed through to  
15 indirect purchasers.

16 ~~221,232.~~ Once a CRT leaves its place of manufacture, it remains essentially  
17 unchanged as it moves through the distribution system. CRTs are identifiable, discreet, physical  
18 objects that do not change form or become an indistinguishable part of the TV or computer  
19 monitor in which they are contained. Thus, CRTs follow a traceable physical chain from the  
20 Defendants to the OEMs to the purchasers of finished products incorporating CRTs.

21 ~~222,233.~~ Moreover, just as CRTs can be physically traced through the supply  
22 chain, so can their price by traced to show that changes in the prices paid by direct purchasers of  
23 CRTs affect prices paid by indirect purchasers of CRT Products. On information and belief,  
24 computer and TV OEMs price their end-products on a “cost-plus” basis.

25 ~~223,234.~~ In retailing, it is common to use a “mark-up rule.” The retail price is set  
26 as the wholesale cost plus a percentage markup designed to recover non-product costs and to  
27 provide a profit. This system guarantees that increases in costs to the retailer will be passed on  
28 to end buyers. For example, CDW, a large seller of CRT monitors, uses such a system. A

1 declaration in the *DRAM* case from CDW's director of pricing details exactly how they  
2 calculated selling prices:

3 In general, CDW employs a "building block" approach to setting its  
4 advertised prices. The first building block is the Cost of Goods Sold  
5 (COGS), which represents the price CDW paid to acquire the  
6 product...CDW...adds a series of positive markups to the cost to CDW to  
7 acquire a given product. These markups are in addition to the pass  
8 through effect of changes in the costs charged to CDW for that product by  
9 a given vendor.

10 ~~224-235.~~ Economic and legal literature has recognized that unlawful overcharges in  
11 a component normally result in higher prices for products containing that price-fixed  
12 component. As Professor Herbert Hovenkamp, a noted antitrust scholar, has stated in his  
13 treatise, *FEDERAL ANTITRUST POLICY, THE LAW OF COMPETITION AND ITS*  
14 *PRACTICE* (1994) at 624:

15 A monopoly charge at the top of the distribution chain generally results in  
16 higher prices at every level below. For example, if production of  
17 aluminum is monopolized or cartelized, fabricators of aluminum  
18 cookware will pay higher prices for aluminum. In most cases they will  
19 absorb part of these increased costs themselves and will pass part along to  
20 cookware wholesalers. The wholesalers will charge higher prices to the  
21 retail stores, and the stores will do it once again to retail consumers.  
22 Every person at every stage in the chain will be poorer as a result of the  
23 monopoly price at the top.

24 Theoretically, one can calculate the percentage of any overcharge that a  
25 firm at one distributional level will pass on to those at the next level.

26 ~~225-236.~~ Similarly, two other antitrust scholars—Professors Robert G. Harris  
27 (Professor Emeritus and former Chair of the Business and Public Policy Group at the Hass  
28 School of Business at the University of California at Berkeley) and the late Lawrence A.  
Sullivan (Professor of Law Emeritus at Southwestern School of Law and author of the  
*Handbook of the Law of Antitrust*)—have observed that "in a multiple-level chain of  
distribution, passing on monopoly overcharges is not the exception; it is the rule."

~~226-237.~~ As Professor Jeffrey McKie-Mason (Arthur W. Burks Professor for  
Information and Computer Science, Professor of Economics and Public Policy, and Associate

1 Dean for Academic Affairs in the School of Information at the University of Michigan), an  
 2 expert who presented evidence in a number of the indirect purchaser cases involving Microsoft  
 3 Corporation, said (in a passage quoted in a judicial decision in that case granting class  
 4 certification):

5 As is well known in economic theory and practice, at least some of the  
 6 overcharge will be passed on by distributors to end consumers. When the  
 7 distribution markets are highly competitive, as they are here, all or nearly  
 8 the entire overcharge will be passed on through to ultimate consumers....  
 9 Both of Microsoft's experts also agree upon the economic phenomenon of  
 cost pass through and how it works in competitive markets. This general  
 phenomenon of cost pass through is well established in antitrust laws and  
 economics as well.

10 227-238. The purpose of Defendants' conspiratorial conduct was to fix, raise,  
 11 maintain and stabilize the price of CRTs and, as a direct and foreseeable result, CRT Products.  
 12 The market for CRTs and the market for CRT Products are inextricably linked. One exists to  
 13 serve the other. Defendants not only knew, but expressly contemplated that prices of CRT  
 14 Products would increase as a direct result of their increasing the prices of CRTs.

15 228-239. Finally, many of the Defendants and/or co-conspirators themselves have  
 16 been and are currently manufacturers of CRT TVs and computer monitors. Such manufacturers  
 17 include, for example, Samsung, LG, Hitachi, Toshiba, Philips, and Panasonic. Having agreed to  
 18 fix prices for CRTs, the major component of the end products they were manufacturing, these  
 19 Defendants intended to pass on the full cost of this component in their finished products, and in  
 20 fact did so.

21 240. As a direct and proximate result of Defendants' illegal conduct, Plaintiffs and  
 22 other indirect purchasers have been forced to pay supra-competitive prices for CRT Products.  
 23 These inflated prices have been passed on to them by direct purchaser manufacturers,  
 24 distributors and retailers.

1                                   **X. CLASS ACTION ALLEGATIONS**

2           ~~230-241.~~ Plaintiffs bring this action individually and as a class action pursuant to  
3 the provisions of Rule 23 of the Federal Rules of Civil Procedure on behalf of all members of  
4 the following class (the “Nationwide Class”):

5           All persons and or entities who or which indirectly purchased in the United  
6 States for their own use and not for resale, CRT Products manufactured and/or  
7 sold by the Defendants, or any subsidiary, affiliate, or co-conspirator thereof, at  
8 any time during the period from at least March 1, 1995 through at least  
9 November 25, 2007. Specifically excluded from this Class are the Defendants;  
10 the officers, directors or employees of any Defendant; any entity in which any  
11 Defendant has a controlling interest; and, any affiliate, legal representative, heir  
or assign of any Defendant. Also excluded are any federal, state or local  
government entities, any judicial officer presiding over this action and the  
members of his/her immediate family and judicial staff, and any juror assigned to  
this action.

12           ~~231-242.~~ Plaintiffs also bring this action on behalf of themselves and as a class  
13 action pursuant to the provisions of Rule 23 of the Federal Rules of Civil Procedure and/or  
14 respective state statute(s), on behalf of all members of the following State classes or subclasses  
15 (collectively “Indirect Purchaser State Classes”): Arizona, California, District of Columbia,  
16 Florida, Hawaii, Iowa, Kansas, Maine, Michigan, Minnesota, Mississippi, Nebraska, Nevada,  
17 New Mexico, New York, North Carolina, North Dakota, South Dakota, Tennessee, Vermont,  
18 West Virginia, and Wisconsin.

19           ~~232-243.~~ Each of the Indirect Purchaser State Classes is defined as follows:

20           All persons and or entities in Arizona, California, District of Columbia, Florida,  
21 Iowa, Kansas, Maine, Michigan, Minnesota, Mississippi, New Mexico, New  
22 York, North Carolina, North Dakota, South Dakota, Tennessee, Vermont, West  
23 Virginia, and Wisconsin who or which indirectly purchased for their own use and  
24 not for resale, CRT Products manufactured and/or sold by the Defendants, or any  
subsidiary, affiliate, or co-conspirator thereof, at any time during the period from  
at least March 1, 1995 through at least November 25, 2007.

25           All persons and entities in Hawaii who or which indirectly purchased for their  
26 own use and not for resale CRT Products manufactured and/or sold by one or  
27 more of the Defendants or any of their parents, affiliates, subsidiaries,  
predecessors or successors in interest at any time from June 25, 2002 through at  
28 least November 25, 2007.

1 All persons and entities in Nebraska who or which indirectly purchased for their  
 2 own use and not for resale CRT Products manufactured and/or sold by one or  
 3 more of the Defendants or any of their parents, affiliates, subsidiaries,  
 predecessors or successors in interest at any time from July 20, 2002 through at  
 least November 25, 2007.

4 All persons and entities in Nevada who or which indirectly purchased for their  
 5 own use and not for resale CRT Products manufactured and/or sold by one or  
 6 more of the Defendants or any of their parents, affiliates, subsidiaries,  
 predecessors or successors in interest at any time from February 4, 1999 through  
 at least November 25, 2007.

8 Specifically excluded from these Classes are the Defendants; the officers,  
 9 directors or employees of any Defendant; any entity in which any Defendant has a  
 controlling interest; and, any affiliate, legal representative, heir or assign of any  
 Defendant. Also excluded are any federal, state or local government entities, any  
 10 judicial officer presiding over this action and the members of his/her immediate  
 family and judicial staff, and any juror assigned to this action.

12 ~~233, 244.~~ This action has been brought and may properly be maintained as a class  
 13 action pursuant to Rule 23 of the Federal Rules of Civil Procedure for the following reasons:

14 a. The Classes are ascertainable and there is a well-defined community of  
 15 interest among members of the Classes;

16 b. Based upon the nature of trade and commerce involved and the number of  
 17 indirect purchasers of CRT Products, Plaintiffs believe that the number of Class members is  
 18 very large, and therefore joinder of all Class members is not practicable;

19 c. Plaintiffs' claims are typical of Class members' claims because Plaintiffs  
 20 indirectly purchased CRT Products manufactured by Defendants or their co-conspirators, and  
 21 therefore Plaintiffs' claims arise from the same common course of conduct giving rise to the  
 22 claims of the members of the Classes and the relief sought is common to the Classes;

23 d. The following common questions of law or fact, among others, exist as to  
 24 the members of the Classes:

25 i. Whether Defendants formed and operated a combination or  
 26 conspiracy to fix, raise, maintain, or stabilize the prices of CRT Products;

27 ii. Whether the combination or conspiracy caused CRT Product  
 28 prices to be higher than they would have been in the absence of Defendants' conduct;

1                   iii.     The operative time period of Defendants' combination or  
2 conspiracy;  
3                   iv.     Whether Defendants' conduct caused injury to the business or  
4 property of Plaintiffs and the members of the Classes;  
5                   v.     The appropriate measure of the amount of damages suffered by  
6 the Classes;  
7                   vi.     Whether Defendants' conduct violates Section 1 of the Sherman  
8 Act (15 U.S.C. § 1) as alleged in the First Claim for Relief;  
9                   vii.    Whether Defendants' conduct violates the Indirect Purchaser  
10 States' antitrust laws as alleged in the Second Claim for Relief;  
11                  viii.   Whether Defendants' conduct violates the unfair competition and  
12 consumer protection laws of the Consumer Protection States as alleged in the Third Claim for  
13 Relief;  
14                  ix.     The appropriate nature of class-wide equitable relief.  
15                e.     These and other questions of law and fact common to the members of the  
16 Classes predominate over any questions affecting only individual members, including legal and  
17 factual issues relating to liability and damages;  
18                f.     After determination of the predominant common issues identified above,  
19 if necessary or appropriate, the Classes can be divided into logical and manageable subclasses;  
20                g.     Plaintiffs will fairly and adequately protect the interests of the Classes in  
21 that Plaintiffs have no interests that are antagonistic to other members of the Classes and have  
22 retained counsel competent and experienced in the prosecution of class actions and antitrust  
23 litigation to represent them and the Classes;  
24                h.     A class action is superior to other available methods for the fair and  
25 efficient adjudication of this litigation since individual joinder of all damaged Class members is  
26 impractical. The damages suffered by the individual Class members are relatively small, given  
27 the expense and burden of individual prosecution of the claims asserted in this litigation. Thus,  
28 absent the availability of class action procedures it would not be feasible for Class members to

1 redress the wrongs done to them. Even if the Class members could afford individual litigation,  
 2 the court system could not. Further, individual litigation presents the potential for inconsistent  
 3 or contradictory judgments and would greatly magnify the delay and expense to all parties and  
 4 the court system. Therefore, the class action device presents far fewer case management  
 5 difficulties and will provide the benefits of unitary adjudication, economy of scale and  
 6 comprehensive supervision in a single court;

7 i. Defendants have acted, and/or refused to act, on grounds generally  
 8 applicable to the Classes, thereby making appropriate final injunctive relief with respect to the  
 9 Classes as a whole; and

10 j. In the absence of a class action, Defendants would be unjustly enriched  
 11 because they would be able to retain the benefits and fruits of its wrongful conduct.

## 12 **XI. VIOLATIONS ALLEGED**

### 13 **A. First Claim for Relief: Violation of Section 1 of the Sherman Act**

14 ~~234,245.~~ Plaintiffs incorporate and reallege, as though fully set forth herein, each  
 15 and every allegation set forth in the preceding paragraphs of this Complaint.

16 ~~235,246.~~ Beginning at a time unknown to Plaintiffs, but at least as early as March  
 17 1, 1995, through at least November 25, 2007, the exact dates being unknown to Plaintiffs and  
 18 exclusively within the knowledge of Defendants, Defendants and their co-conspirators, entered  
 19 into a continuing agreement, understanding, and conspiracy to unreasonably restrain trade and  
 20 commerce in the United States, in violation of Section 1 of the Sherman Act, 15 U.S.C. §1.

21 ~~236,247.~~ In particular, Defendants have combined and conspired to fix, raise,  
 22 maintain or stabilize the prices of CRT Products sold in the United States.

23 ~~237,248.~~ Defendants, by their unlawful conspiracy, artificially raised, inflated and  
 24 maintained the market prices of CRT Products as herein alleged.

25 ~~238,249.~~ The contract, combination or conspiracy consisted of a continuing  
 26 agreement, understanding and concert of action among Defendants and their co-conspirators, the  
 27 substantial terms of which were to fix, raise, maintain and stabilize the prices of CRT Products  
 28 they sold in the United States and elsewhere.

~~239,250.~~ In formulating and carrying out the alleged agreement, understanding, and conspiracy, the Defendants and their co-conspirators did those things that they combined and conspired to do, including, but not limited to the acts, practices, and course of conduct set forth above, and the following, among others:

- a. Participated in meetings and conversations to discuss the prices and supply of CRT Products in the United States and elsewhere;
- b. Agreed to manipulate prices and limit supply of CRT Products sold in the United States and elsewhere in a manner that deprived direct and indirect purchasers of CRT Products of free and open competition;
- c. Issued price announcements and price quotations in accordance with the agreements reached;
- d. Sold CRT Products to customers in the United States at non-competitive prices; and
- e. Invoiced customers in the United States at the agreed-upon, fixed prices for CRT Products and transmitting such invoices via U.S. mail and other interstate means of delivery.

~~240,251.~~ The combination and conspiracy alleged herein has had the following effects, among others:

- a. Price competition in the sale of CRT Products has been restrained, suppressed and/or eliminated in the United States;
- b. Prices for CRT Products sold by Defendants and their co-conspirators have been fixed, raised, maintained and stabilized at artificially high, non-competitive levels throughout the United States; and
- c. Those who purchased CRT Products directly or indirectly from Defendants have been deprived the benefits of free and open competition.

~~241,252.~~ As a direct result of the unlawful conduct of Defendants and their co-conspirators in furtherance of their continuing contract, combination or conspiracy, Plaintiffs and the members of the Nationwide Class have been injured and will continue to be injured in

1 their business and property by paying more for CRT Products purchased indirectly from the  
 2 Defendants and their co-conspirators than they would have paid and will pay in the absence of  
 3 the combination and conspiracy.

4 ~~242,253.~~ These violations are continuing and will continue unless enjoined by this  
 5 Court.

6 ~~243,254.~~ Pursuant to Section 16 of the Clayton Act, 15 U.S.C. § 26, Plaintiffs and  
 7 the Nationwide Class seek the issuance of an injunction against Defendants, preventing and  
 8 restraining the violations alleged herein.

9 **B. Second Claim For Relief: Violation of State Antitrust Statutes**

10 ~~244,255.~~ Plaintiffs incorporate and reallege, as though fully set forth herein, each  
 11 and every allegation set forth in the preceding paragraphs of this Complaint.

12 ~~245,256.~~ Plaintiff Brian Luscher ("Arizona Plaintiff") incorporates and realleges  
 13 each and every allegation set forth in the preceding paragraphs of this Complaint and further  
 14 alleges as follows:

- 15 a. Defendants agreed to, and did in fact, act in restraint of trade or commerce  
 16 by affecting, fixing, controlling and/or maintaining, at artificial and/or  
 17 non-competitive levels, the prices at which CRT Products were sold,  
 18 distributed or obtained in Arizona.
- 19 b. Defendants' combinations or conspiracies had the following effects: (1)  
 20 CRT Product price competition was restrained, suppressed, and  
 21 eliminated throughout Arizona; (2) CRT Product prices were raised,  
 22 fixed, maintained, and stabilized at artificially high levels throughout  
 23 Arizona; (3) the Arizona Plaintiff and members of the Arizona Indirect  
 24 Purchaser Class paid supracompetitive, artificially inflated prices for CRT  
 25 Products.
- 26 c. During the Class Period, Defendants' illegal conduct substantially  
 27 affected Arizona commerce.

- d. As a direct and proximate result of Defendants' unlawful conduct, the Arizona Plaintiff and members of the Arizona Indirect Purchaser Class have been injured in their business and property and are threatened with further injury.
- e. By reason of the foregoing, Defendants have entered into agreements in restraint of trade in violation of Ariz. Rev. Stat. §§44-1401, *et seq.*<sup>1</sup> Accordingly, the Arizona Plaintiff and the members of the Arizona Indirect Purchaser Class seek all forms of relief available under Ariz. Rev. Stat. §§ 44-1401, *et seq.*

~~246-257.~~ Plaintiffs Jeffrey Figone, Carmen Gonzalez, Dana Ross, and Steven Ganz ("California Plaintiffs") incorporate and reallege each and every allegation set forth in the preceding paragraphs of this Complaint and further alleges as follows:

- a. Beginning at a time presently unknown to Plaintiffs, but at least as early as March 1, 1995, and continuing thereafter at least up to and including November 25, 2007, Defendants and their co-conspirators entered into and engaged in a continuing unlawful trust in restraint of the trade and commerce described above in violation of Section 16720, California Business and Professional Code. Defendants, and each of them, have acted in violation of Section 16720 to fix, raise, stabilize and maintain prices of CRT Products at supra-competitive levels.
- b. The aforesaid violations of Section 16720, California Business and Professions Code, consisted, without limitation, of a continuing unlawful trust and concert of action among the Defendants and their co-conspirators, the substantial terms of which were to fix, raise, maintain and stabilize the prices of, and to allocate markets for CRT Products.

<sup>1</sup> In compliance with Arizona's Antitrust Act, Ariz. Rev. Stat. § 44-1415, Plaintiffs mailed a copy of the Second Consolidated Amended Complaint to the Arizona Attorney General on May 10, 2010.

- 1 c. For the purpose of forming and effectuating the unlawful trust, the  
2 defendants and their co-conspirators have done those things which they  
3 combined and conspired to do, including but in no way limited to the acts,  
4 practices, and course of conduct set forth above and the following: (1)  
5 fixing, raising, stabilizing and/or maintaining the price of CRT Products;  
6 and (2) allocating among themselves the production of CRT Products.
- 7 d. The combination and conspiracy alleged herein has had, *inter alia*, the  
8 following effects: (1) price competition in the sale of CRT Products has  
9 been restrained, suppressed and/or eliminated in the State of California;  
10 (2) prices for CRT Products sold by Defendants and their co-conspirators  
11 have been fixed, raised, maintained and stabilized at artificially high, non-  
12 competitive levels in the State of California; and (3) those who purchased  
13 CRT Products directly or indirectly from Defendants and their co-  
14 conspirators have been deprived of the benefit of free and open  
15 competition.
- 16 e. As a direct and proximate result of Defendants' unlawful conduct,  
17 Plaintiffs and the members of the California Class have been injured in  
18 their business and property in that they paid more for CRT Products than  
19 they otherwise would have paid in the absence of Defendants' unlawful  
20 conduct. As a result of Defendants' violation of Section 16720 *et seq.* of  
21 the California Business and Professions Code, Plaintiffs seek treble  
22 damages and the costs of suit, including reasonable attorneys' fees,  
23 pursuant to Section 16750(a) of the California Business and Professions  
24 Code.

25 ~~247-258.~~ Plaintiff Law Suites. ("DC Plaintiff") incorporates and realleges each and  
26 every allegation set forth in the preceding paragraphs of this Complaint and further alleges as  
27 follows:  
28
